IN THE PROTECTORATE—*continued.*

The fees paid to the Sheriff and Officers of Court cover all such expenses as cost of paper, preparation and posting up and delivery of notice, hiring, and ringing of bells and the like.

The Court may, in any case, civil or criminal, require a witness's expenses to be paid or secured before issuing a subpoena for the witness.

The travelling expenses of witnesses in all civil and criminal causes shall be allowed according to the sums reasonably and actually paid.

An officer in the Public Service when summoned as a witness, except when summoned by the Crown, is allowed costs and travelling expenses as if he were not in the Public Service, when a witness actually attends for less than one hour, he may be allowed only half costs if the Court thinks fit.

In criminal proceedings the Court may, if it thinks fit, direct repayment of any fees paid.

No fees are taken which would be payable by any public department; but in criminal proceedings such fees shall, nevertheless, where they would ordinarily be payable, be taken as paid for the purpose of assessing any costs which the Court shall direct to be paid.

ALL FEES ARE PAID INTO THE TREASURY FOR PUBLIC USE.

The following fees are paid to the officer or officers concerned :—

SECTION 6—PUBLIC DEBT.

Amount of Original Debt.	Amount repaid.	Amount Outstanding at end of Year under Review.	To Whom Due.	Rate of Interest.
£		£		
1,250,000		1,250,000	Stockholders	3½ per cent.
1,000,000		1,000,000	Stockholders	4 per cent.
57,825		57,825	Inter-Colonial loan	4½ per cent.
202,500		202,500	Inter-Colonial loan	4½ per cent.

When incurred and for what Purpose.	State Provisions for Payment of Interest or Sinking Funds, and refer to Enactments by which it is made.	Total Amount paid into Sinking Fund.	Remarks.
Incurred in 1904 under the provisions of Ordinance No. 20 of 1903, as amended by Ordinances Nos. 3 and 4 of 1904 for Railway Construction purposes and other public works.	Interest payable half-yearly by the Crown Agents in London out of the General Revenue and Assets of the Government of Sierra Leone under sections 3, 10 and 12 of Ordinance No. 20 of 1903. Under sections 10 and 25 of Ordinance No. 20 of 1903 the sum of ten shillings sterling per one hundred pounds is appropriated each half-year out of the General Revenue and Assets of the Colony of Sierra Leone and remitted to the Crown Agents for investment for the formation of a Sinking Fund.	£296,424 15s. 7d.	The original loan was issued in the form of 4 per cent. ten-year Bonds convertible later into 3½ per cent. Inscribed Stock. Bonds to the value of £551,600 of this original loan have been redeemed and the remainder converted into 3½ per cent. Inscribed Stock.
Incurred in 1913 and 1914 under the provisions of Ordinances Nos. 19 and 26 of 1913 to redeem the outstanding 4 per cent. ten-year Convertible Bonds falling due on 1st June, 1914, and to meet the cost of Railway Extension and Harbour Works.	Interest payable half-yearly on 15th June and 15th December in each year by the Crown Agents in London. Under the provisions of Ordinance No. 19 of 1913 the loan is secured on the General Revenue and Assets of the Government of Sierra Leone and the principal will be payable at par on 15th June, 1963, by a Sinking Fund of 1 per cent. per annum to be formed under the management of the Crown Agents in England, but the Government will have the option of redemption at par on or after 15th June, 1938.	£207,619 4s. 0d.	
Incurred in October, 1928, under Ordinance No. 22 of 1927 to meet the cost of Freetown Electric Light and Power Supply.	Interest payable on the 15th March and the 15th September of each year by the Crown Agents in London. Under Ordinance No. 22 of 1927, the loan is secured on the General Revenue and Assets of the Government of Sierra Leone and the principal will be payable at par on the 15th March, 1955, by half-yearly contributions to a Sinking Fund.	£2,586 5s. 5d.	First instalment of the Domestic Loan authorized by Ordinance No. 22 of 1927.
Incurred in December, 1930, under Ordinance No. 22 of 1927 to meet the cost of certain public works and other undertakings.	Interest payable on the 1st June and 1st December of each year by the Crown Agents in London. Under Ordinance No. 22 of 1927, the loan is secured on the General Revenue and Assets of the Government of Sierra Leone and the principal will be payable at par on the 1st December, 1955, by half-yearly contributions to a Sinking Fund.		Second and third instalment of the Domestic Loan authorized by Ordinance No. 22 of 1927.

POLITICAL FRANCHISE

1930.

LEGISLATIVE COUNCIL.

Under the provisions of the Sierra Leone (Legislative Council) Order-in-Council, 1924, three members are elected to the Legislative Council for a term of five years each, viz. two for the Urban and one for the Rural Electoral Districts.

The Urban Electoral District consists of the City of Freetown (section 4, Cap. 80) together with the Sherbro Judicial District (Governor's Order of 16th May, 1921).

The Rural Electoral District consists of those parts of the Colony not being within the City of Freetown which are within the Peninsula of Sierra Leone, together with Tasso Island and the Banana Islands.

The electorate is confined to male British subjects, or natives of the Protectorate capable of reading and writing English or Arabic, of twenty-one years of age, having resided for twelve months in the electoral district in which the vote is claimed.

The property qualifications are : in the Urban Electoral District, ownership or occupation of premises of not less than £10 in value, or receipt of a yearly salary of not less than £100 ; and in the Rural Electoral District, ownership or occupation of premises of not less than £6 in value, or receipt of a yearly salary of not less than £60.

No person is capable of being elected a member of the Legislative Council if he is not twenty-five years of age, if he has been dismissed from the Government Service or debarred from practising as a legal or medical practitioner by a competent authority, or is in the public service of the Colony or Protectorate, or is not registered as an elector. The property qualification for a member is the possession of real or personal property of the value of £250 for the Urban and £100 for the Rural Electoral Districts.

MUNICIPAL CORPORATION OF FREETOWN.

The Municipal Corporation of Freetown is governed by the provisions of Ordinance No. 38 of 1927 for Municipalities and other Local Bodies, *see* Section 7).

			1930 Freetown Colony other than Freetown 336·64 249·36 The infantile mortality is taken as the number of deaths of infants under one year of age per thousand registered births during the year. The above figures are to be regarded with considerable reserve, as it is probable that many births are unregistered. Consequently the rate appears higher than it actually is.	According to the Census of 1921, the following is the population :— Colony—White Coloured Aliens and strangers Protectorate 1,109 84,054 — 1,450,903

IMPORTS AND EXPORTS

1930.

ALL TABLES RELATE TO THE CALENDER YEAR.

SUMMARY TABLES.

Table 1 shows the total value of imports from each principal country, including bullion and specie together with classifications in groups under the four main heads of—

- i. Food, drink and tobacco.
- ii. Raw materials and articles mainly manufactured.
- iii. Articles wholly or mainly manufactured.
- iv. Miscellaneous and unclassified.

A separate column records the particulars in respect of bullion and specie.

Table 2 gives like particulars in regard to domestic exports and table 3 furnishes similar information with respect to re-exports. Table 4 shows the value of total exports to each country by classes.

DETAILED TABLES.

Tables 9 and 11 show in alphabetical order imports and exports of articles from and to each country

The table relating to imports (table 9) shows separately the "total imports" and imports for home consumption. The total imports include all goods landed and afterwards re-exported. The imports for home consumption include goods entered for use in the Colony at the time of importation and goods cleared for home use ex-warehouse.

COUNTRIES TO WHICH IMPORTS AND EXPORTS ARE CREDITED.

Imports are classified as received from the countries whence they were consigned. These countries are not in all cases the countries of actual origin, since goods produced in one country may be purchased by a firm in another country, and thence dispatched, after a longer or shorter interval, to the Colony. In such a case the second country, being the country of last ownership, would be the "country whence consigned."

Exports are credited in the tables to countries to which they are consigned, whether that country possesses a seaboard or not.

METHOD OF ASCERTAINING QUANTITIES AND VALUES OF IMPORTS AND EXPORTS.

The statements of quantities and values are based on the declaration of importers and exporters and subsequently checked by the Customs officials. Where goods are entered by weight the quantities shown as imported (except in cases where duty is charged on the gross weight) and exported represent the net weight exclusive of packages, sacks, casks, etc., in which they may be contained.

The value of imports are exclusive of the amount of duty, and are "c.i.f."; the values of exports are "f.o.b." values, inclusive of export duty.

Imports and exports by parcel post have been recorded under their proper statistical heads in the various classes.

CONCESSIONS AND LICENCES.			General Information regarding the Industry and the Possibilities of Development.
Concessions, Cutting Licences, etc.	Number.	Area covered.	
Timber ...	No concessions granted, only few licences to fell trees.	—	The timber industry, a very small one, is chiefly carried on by the native sawyers and canoe makers who work in unreserved forests over which the Government have no control. From the reserved forests, most of which at present are rather inaccessible, no large supplies of timber can be obtained.
Rubber ...	—	60 acres of hevea being worked by Prison Department.	
Gum copal ...	The trees will not be tapped again until 1931.	—	
Clearance licences for prospecting for minerals in Forest Reserves.	8	18 square miles.

Kind of Fish.	Quantity.	Landed Value.	Number of Boats engaged in Fishing.	
Angel	Not ascertainable.	1 <i>d.</i> to 3 <i>d.</i> each	Not ascertainable.	Fish abounds in the river Rokelle; but the catches are irregular owing to the fact that only surf boats with drag nets are used in connection with the industry. In various parts around Freetown, where there are tidal rivers, a fair quantity of fish is caught by setting traps with galvanized wire netting. Trammel nets have also been tried but unsuccessfully, although a kind of net made locally is used in some portions of the Southern Province in the same way as trammel nets.

Hornell, late Director of Fisheries to the Government of Madras. The result of the investigation is embodied in a report which is obtainable from the Government Printing Office, Sierra Leone. Mr. Hornell recommended that the quantity and quality of the fish abounding in the sea coast of the Colony are worthy of commercial enterprise.

State Area which has been Geologically surveyed. Note any important Mineral Deposits known to exist, but not at present worked.

The potential water power resources of Sierra Leone are very great. The average rainfall over the whole of Sierra Leone is more than 100 inches per annum, and nearly all of the big rivers, and many of the smaller streams descend from the high plateaux in the Northern and Eastern portion of the Protectorate by a series of falls and rapids. Important falls and rapids occur in the same streams in their courses across the coastal plain.

Near Pundaru, the Sewa River falls 300 feet, including a vertical fall 105 feet high, in about 1½ miles. The ordinary minimum run off at this point is roughly 1,000 cusecs.

Near Bombuna, the Rokell (Seli) River falls about 200 feet in 2 miles, and near Marampa there are falls and rapids, aggregating 50 feet in height, on the same river. The run off at the latter place is very large.

At the Bitiri (Bitmai) falls on the Pampana River near Mamaya the river falls about 120 feet in 0.15 mile.

Important falls also occur in the Taia River near Mongeri, and on the Moa River near Daru.

The Colony and part of the Protectorate :—

Platinum, Gold, Haematite, Chromite, Ilminite and Corundum.

INDUSTRIAL ESTABLISHMENT MANUFACTORIES.

Industry.	Number of Establishment or Manufactories.	Number of Persons employed.	Cost of Raw Materials used.	Output during the Year.	
				Quantity.	Net Selling Value at Factory or Works.

There are no manufactures in the Colony or Protectorate. Simple articles for local use are made, the more important being baskets, boats and canoes, boots, shoes, sandals, coco-nut oil, cotton cloths, coarse dyestuffs (principally indigo), fishing-nets, seines, furniture, ground-nut oil, hammocks (cloth and grass), leather, building lime made from oyster shells, mats, palm oil, pottery, ropes and fishing lines, soap. The Military authorities have an ice and mineral water factory at Freetown : also two companies (Freetown Cold Storage, Limited, and the Crown Bottling) manufacture ice and minerals.

SUMMARY OF INDUSTRIAL DEVELOPMENT.

There are no developments in the agricultural, forestal, fishing and other industries of the Colony during the year, except that work was continued for the establishment of a 2,000-acre oil-palm plantation by Government on commercial lines and of an experiment station for bananas and citrus fruit : it is expected that the former will be completed in 1931. The reservation of the remaining virgin forest areas has been proceeded with. The total area of protected forest now amounts to 688 square miles.

Mining development progressed favourably during the year. Platinum production compared with the preceding year increased by over 500 ozs. despite the heavy fall in the price of the metal. Gold mining commenced in the Protectorate and two companies were engaged in transporting and erecting on their properties, plants for exploiting alluvial gold deposits mechanically. Development work on the chromite deposits has met with encouraging results.

An agreement was concluded for the exploitation of the iron ore deposits near Marampa and railway construction from the Coast to Marampa was commenced in the latter part of the year.

Adequate measures are taken for the protection of the staff who, by the nature of their work, are engaged with machinery. Compensation to workmen in cases of injury is dealt with by the Government on the recommendation of the General Manager. Free medical attendance is given to the staff during sickness, and full time is paid when off duty owing to accidents sustained while at work, up to twenty-eight days; sick pay leave in certain circumstances. Periodical boiler inspections are made by competent European boiler-makers.	No detailed records are available regarding daily-wage men, the practice is for the men to return to their houses when sick, and no record is kept of such cases. Many daily-wage men leave their work without any notice and it is difficult to ascertain whether their absence is due to sickness or not.
Agricultural.	743	6d. to 3s. 3d. a day.	40 to 51 hrs. per week.	No measures are taken to enforce the conditions of labour referred to in this column, but when sickness is reported, employees are usually sent to the hospital or dispensary where they are given free medical attendance.	No records are kept, but cause of sickness and death cannot, however, be ascribed to conditions of labour.

Roads.

Road.	Length open for Traffic. — Miles.	Road.	Length open for Traffic. — Miles.
COLONY.		PROTECTORATE.	
Freetown. The roads of the capital of the Colony are for the most part wide, well laid out, and drained. Of the total mileage open to traffic, approximately fifteen and a-half miles have been metalled with laterite and some eight and a-half miles provided with concrete drains on modern lines. The main arterial roads are in general use for motor traffic and some seven and a-quarter miles have been tar-surfaced owing to the great increase in traffic. The majority of the more important streets are negotiable for motors.		The roads in the Protectorate are divided into two classes, viz.—motor-roads and hammock roads. Motor-roads are of a general width of 16 feet with permanent bridges. Hammock roads are constructed and maintained by the local chief. All roads shown in Schedule A are open to motor traffic except that there is an unbridged creek on the Moyamba-Sembhun road about half-a-mile from Sembhun. Ferries in commission at end of year, all capable of taking lorries, are as follows:—	
Motor roads	12½	Bo-Pujehun road	3
Motorable streets	5½	Pujehun-Zimi road	2
Other streets	32	Bo-Kumrabai road	2

		Matiki-Kamakwie	31
		Kambia-Yibaia	29
		Tikonko-Bumpe-Mafwe	30
		Magburaka-Makeni	16
		Daru-Gaura	20
Of the above some nine and a-quarter miles have been tarred and a regular motor-bus service now runs from Freetown to Hill Station and Lumley.			
In addition to the above the following narrower roads of steeper gradients are passable for light motors throughout the year but the surface is unsuitable for heavy traffic:—			
Wilberforce-Congo Town	3		
Lumley Road-Murray Town	1		
Kissy-Kissy flats	1½		
Waterloo-Benguema	1½		
The remaining roads of the Peninsula are unmetalled natural earth roads, narrow, often precipitous, and have bridges suitable for foot traffic only
